Notes:

Databases: 1=Pervasive.SQL, 2=MS-SQL, 3=Oracle, 4=IBM DB2 (Oracle & DB2 only at the 5.1 and higher level)

TBD= To Be Determined

1. Macros are not supported in 5.2 or later modules.

2. Currently, the number changers do not support ACCPAC WMS, CRM, ePOS, Exchange, or eTransact.

3. Will not work with Windows 2003.

4. This product will not support new features (Optional Fields and Kits) in Advantage Series 5.3.

5. EFT Direct Payroll 5.3 does not have consolidation (multifile) capabilities. EFT Direct Payroll 4.1 works with AAS 5.3 if you require this feature.

6. Note for these products to work appropriately, the INI file needs to be updated to recognize the version.

Note that changes made since the publishing of the last compatibility chart are in yellow.

General Notes:

All Options Products only work with Desktop Versions of SM, not web deployed (unless otherwise indicated).

Unless otherwise indicated, Options products work with all "Editions" of ACCPAC Advantage Series.

ACCPAC Options products are tested and supported on the current and one previous version of Advantage Series.
